Hold your hand, look into your eyes
pretending everything is gonna be alright
but I know what you've been up to
and i've got a surprise

damn you cupid, made me feel so stupid
can't believe I fell for your lies
don't know what'll happen to you
but i'll be alright

oh you brought me down
but soon the tables will turn around

ooh baby
oops I think I dropped your iPhone
accidentally broke your xbox
and I think I lost your keys on my way home

ooh baby
oops there goes your favorite tshirt
doesn't seem like luck is on your side today

Call me up like every night
begging for forgiveness
man just let it go
you sound so lame
i can't believe you sunk so low

so boys listen up
take this as a sign
don't mess around with feelings
try to be kind
cuz karma's a bitch
and it comes around

oh you brought me down
but soon the tables will turn around

ooh baby
oops I think I dropped your iPhone
accidentally broke your xbox

and I think I lost your keys on my way home

ooh baby
oops there goes your favorite tshirt
doesn't seem like luck is on your side today

When somebody hurts me
won't get away so easily
nobody plays me
you really screwed it up this time

ooh baby
oops there goes your favorite tshirt
doesn't seem like luck is on your side today!

ooh baby
oops I think I dropped your iPhone
accidentally broke your xbox
and I think I lost your keys on my way home

ooh baby
oops there goes your favorite tshirt
doesn't seem like luck is on your side today
