(A. Eclipta)

When I look around

I am happy with what I see

So we're not gonna tell these human scum

Neptune is the place to be

We're going down to Earth (down)

We're going down to Earth (down)

We're going down to the planet to relax
on human turf

When I go to school

What they're teaching is so easy

'Cause of our intelligence

And the humans are just lazy

so...

We're going down to Earth (down)

We're going down to Earth (down)

We're going down to the planet to relax
on human turf

We are going down to Earth

From Neptune and full of mirth

We are going to relax

While Mrs. A plays her sax

(saxophone solo)

Down... D-D-D-D-Down...

Down... D-D-D-D-Down...

So...

We're going down to Earth (down)

We're going down to Earth (down)

We're going down to the planet to relax
on human turf

We're going down to Earth (down)

We're going down to Earth (down)

We're going down to the planet to relax
on human turf

DOWN...
