"Tomorrow"

I do not know what I am doing here tonight
I wonder what went wrong, I do not know if this feels
right
I could be sorry if I left you tonight

Tomorrow, uh oh
And if I leave today, it's only yesterday
Tomorrow, uh uh oh

I do not know what was wrong with me, I think it's
jealousy
You're just another girl, I've realised this time
I won't waste another day, wishing you'd be mine
If you care I will be there, maybe we'll get it right

Tomorrow, uh uh oh
And if I leave today, it's only yesterday

Tomorrow, uh uh oh

You were the only girl that ever kept me right
I wonder what went wrong now that I'm sitting here
tonight
I could be sorry, if I left you tonight

Tomorrow, uh uh oh
And if I leave today, it's only yesterday
Tomorrow, uh uh oh

All in the dark and you like me, yeah
All in the dark and you like me, yeah
All these thoughts inside my head are
Leading me into my bed, yeah

Ooooh
