We had the world  
All for us  
And the doors  
Had just been opened  
Just one step still to make  
But you have shut all your doors  
We will never know the reason  
All too much to bear

At a whiff from goal  
You disappear  
We were a little family  
And I'm still waiting for a call

But all the memories still hurt  
I am burning fast  
But I think I'm dying  
Because of you

My heart is still under your knives  
I'm crashing down  
You'll see that I'm disarmed  
My heart is still under your knives  
I'm crashing down  
You'll see that I'm disarmed

Though I want to know why  
Though I want to know why

After all I've done  
After all I've done

All I've done  
All I've done

I've always given you everything  
Now this end is what you deserve  
Now the time  
Will be your enemy  
And every beat of your heart  
Will remind you the shame  
You finally arrived

And this hour is for you

My heart is still under your knives  
I'm crashing down  
You'll see that I'm disarmed  
My heart is still under your knives  
I'm crashing down  
You'll see that I'm disarmed

Though I want to know why  
Though I want to know why

After all I've done  
After all I've done

All I've done  
All I've done
