Moon light dancing across the bedroom floor  
Picture perfect just like the night before  
Here we are breathing the air again  
Waiting on somebody to turn us in  
Secret lovers, undercover  
Chasing the wind

Running far away  
Running from the day

'Cause we're only dreamers  
Counting on love to survive  
As long as you stay  
We'll find out a way to get by  
As dreamers who can't close our eyes, Our eyes

Sunlight shining alone the ocean shore  
You stay close by because diamonds they can't ignore  
Here we are breathing the air again  
Waiting on somebody to turn us in

Secret lovers, undercover  
Chasing the wind

Running far away  
Running from the day

'Cause we're only dreamers  
Counting on love to survive  
As long as you stay  
We'll find out a way to get by  
As dreamers who can't close our eyes, Our eyes

So let it take us away

Put your hand in mine  
Let the world start to fade  
We'll give this a try  
And as he gives me away  
Look in these golden eyes

'Cause you're in love with a dreamer

Counting on love to survive

'Cause we're only dreamers

Counting on love to survive

As long as you stay

We'll find out a way to get by

As dreamers who can't close our eyes
