Our eyes  
Your stupid freakin' eyes  
Your lies  
Speaking rotten words

So you think you can take  
All the lifes stolen by the prision of the broken heart  
But I'm tellin' you ma friend  
If you're a fakeness man your not a lover man

Again and again  
All the spoken words are a weapon against to her arms  
Against to her arms, this our way of betray

Another gunshot to my back  
In the bredges of our love  
The constant line  
In the way that you bring her down  
And you swear her a dissapointed love  
With the coldes winter kiss

In the ocean of reality  
All the preasures are relatives  
Are relatives

Don't say everything is already over  
Because there is a humble hope  
Don't say it's already over  
It's not already over

Come tonight  
We will dream in truth  
With love we will know this is who we are  
This is who we are

Is to now  
That I bring you  
The love that you've waiting for your heart  
With the open arms

She's just mistaking (x3)... well

She's just mistaking in another innocent heart(x2) well  
She's just mistaking in another innocent heart(x2) well

Let me show what is... LOVE

Come tonight  
We will dream in truth  
With love we will know this is who we are  
This is who we are

Is to now  
That I bring you  
The love that you've waiting for your heart  
With the open arms
