When I'm thinking in some one else
I feel like this is a poison in my veins
Burning for you (x2)

Mayday... mayday, I'm falling on the prison from your
books(x2)

And now I know, and now I know
This should've been so simple...
There's not just a love, there's not just my love...
There is the current solution...
Save my faith, coz I never tell you
That I was insane, that I was insane...

Yes I... yes I know that you told us down.

Oh my God I'm waiting for the miracle chance
Oh my God

A revelation, a revelation is on my mind
The revelation is a darkened gospel
Oh God the revelation, the revelation on my mind
The revelation is a darkened gospel

Set me free!

Hey Vilma!

Open the door(x2)
