It's going, it's going world
I can't be stopped I'm the king of the world
It's going, it's going world...

You think we all owe you
So you hold you're head up high
But you can't deal with your failures
Because you've got too much pride
If you were smart
You'd try to keep
Your two feet on the ground
It's hard to be the king
When there's no one else around

All your life you've needed someone
Looking out for you
But you think you have the right
To tell them what to do
I'd watch my back this time around
The table's turning fast
Or you might find yourself suprised
Laid on your ass...

It's going, it's going world
I can't be stopped I'm the king of the world
It's going, it's going world...

I've seen both sides and can't believe
That you'd go out this way
You talk a lot but now it seems
You don't have much to say
Rambling on about the fact that you deserve respect
But your back's against the wall
And you put yourself in check
I tried to put you on your feet as often as I could
But now looking back
It makes me wonder if I ever would
Reach out to you the way you are
'Cause I was always there
But you have turned your back on me
And proved that yo don't care

It's going, it's going world
I can't be stopped I'm the king of the world
It's going, it's going world...

Your reign as king is over now and we've all had
enough
You stood there saying "you're the king"
But now I call you bluff
I followed you for all these years
And you can't hold me down
I don't need you anymore because I wear the crown
