See the red light reflecting levels
See a structure, a pattern, a change
Action with no theory, theory with no action
Action with no theory, theory with no action
Action with no theory, theory with no action
Action with no theory, theory with no action

Shrouding in the open fields of light
You try to fight, you fight, you fight, you are
Shrouding in the open fields of light

You try to fight, you fight, you fight, you are

To begin again from the beginning you have began,
rebirth
To begin again from the beginning you have began,
rebirth
Being swept along, is no longer enough, you will begin,
rebirth
The spot was centred, in the expanding mind
The mind was centred in the expanding spot
