What's your motivation?  
What pushes you?  
What have you accomplished when the day is through?  
Is it about money?  
Is it about fame?  
Is it about people knowing your name?  
Is it about drugs?  
Is it about sex?  
Are these all the ways you measure success?  
Is it about fashion?  
Is it about sales?  
How do you know when you're a corporate whore?  
What have you gave?  
What have you taught?  
Is this what you are really about?

What's your motivation?  
What pushes you?  
What have you accomplished when the day is through?

Is it about security?  
Is it about stability?  
Are these worth giving up on your dreams?  
Is it about a room of things?  
Is it about a bank account?  
Are these things ever enough?  
Is it about a wife?  
Is it about a husband?  
Are you doing what society tells you?

What have you gave?  
What have you taught?  
Is this what you are really about?  
What's your motivation?  
What pushes you?  
What have you accomplished when the day is through?
