Viktor bout, lord of war, merchant of death  
Conduit of terror, agent of torment  
Endless out pour of global scum  
Vultures of the end  
Wretched filth pay to thee  
Father still born breath  
The soil soaked with blood  
Ethnic cleansing  
Profit from a gun  
Killer of them all upon a throne of flesh  
Rotting from within  
The ashes of man lift  
Adrift in wind and fire  
Above the world that is  
Suffer on to thee  
Father still born breath  
Merchant of death
