Endless refuse in a world of shit  
Flies swarm their starving heads  
Wheres your god, he is fucking dead  
No reprieve, you are all condemned  
Massacre of human life  
Total death in the age lies  
Violence spreads across the world  
No hope, all will burn  
Isolate and scorn the herd  
Force the doctrine of cruelty learned  
Target and efface the heathen ones  
Mass extinction, the beast smells blood  
Massacre of human life  
Total death in the age of lies  
Violence spreads across the world  
No hope, all will burn  
The cries call out to empty skies  
Angels see through warlords eyes  
Superstitions have claimed you all  
Know that war is the will of god
