Where were you tonight  
Did I push you away  
Or am I closing my eyes tonight  
Oh honesty  
Have you come to rescue me?  
From everything I can't admit I've done tonight  
Cause I know how to lie as well as I know right from  
wrong  
So is it black and white?  
Where is the line that I once drew?  
One step back feels like miles from you tonight

Oh honesty come and save me from myself  
From everything I can't admit I am tonight  
Cause I know how to lie as well as I know right from  
wrong  
Don't take the truth from me  
The only thing that's real  
And save me honesty from the way I feel  
Cause I know how to lie  
Cause I know how to lie as well as I know right from  
wrong
