I have got no money now  
But I'm still alive somehow  
Heating, electricity  
Even water isn't free

I have got some time of my own  
Just enough to play on my guitar

Of course I know I'm not the first

Lots of writers had it worse  
Blouses and a double bed  
Records, books and Internet

I have got some things of my own  
Just enough to live life commonly

I guess it is no use at all  
Dreaming that I'll have it all  
Imagine living by the sea  
In Cornwall, France or Tuscany

I have got a life of our own  
Taking place all day long  
Where we live a life time peacefully

I have got a life of our own  
Taking place all day long  
Reading novels by the apple tree
