Intro- Morge,  
From morge to my angel,  
Ok! it's another side of music

Verse 1:

You're not here but I'm still with ya  
So much memories of you some I can't remember  
I need right here to make me better  
Your absence gives my heart blisters  
I'm a bird without wings a song without words  
I know this feeling go straight into your nerves  
For all my wrong mentions  
I'm saying please  
It was'nt my intension  
I'm on my knees  
If I loose you then I'm lost to  
Don't wanna loose you let's be together  
Lets be forever, caelis et terra  
Every where we are, mrs and mr  
You'll be my love, I'll be your lover  
Day or night, winter or summer  
Everyday, everytime  
Anyday, anytime

Chorus: Words form left keep saying you're my angel  
Words form right keep saying you're my angel  
Words in front keep saying you're my angel  
Words at the back keep saying you're my angel  
You're my angel(right)  
You're my angel(fly)  
You're my angel(right)  
You're my angel(fly)

Verse 2:

You're my angel, spread you're wings  
Now your sword shine like a diamond bling  
A beautiful angel your eyes tell  
I think you're gabriel or maybe michael  
You've made me crazy, I can't focus  
But you'll get me back so no loss

You're my medicine, take you without prescription  
Now I start to get dreams with so much vision  
At the park, at the beach, at the shoppin mall  
I remember when I see your picture painting on the wall  
Oh! when I look at it I feel so cold  
It's symbolic maybe painted by leonardo  
I really miss you much I guess you know  
You need to be right here cause my hearth is burning,  
oh no!

Chorus: Words form left keep saying you're my angel  
Words form right keep saying you're my angel  
Words in front keep saying you're my angel  
Words at the back keep saying you're my angel  
You're my angel(right)  
You're my angel(fly)  
You're my angel(right)  
You're my angel(fly)

Verse 3:

My door is locked, baby you're the keys  
I just checked into rehab, you're my disease  
Now I've met a girl who can change the world  
Before I met her I was a knight without sword  
I'm gonna make you feel like you never did  
Love is on the lead  
It's your lips I read  
It's me you want, it's me you need  
A wedding without ending  
Please don't make it pending  
That's all I'm requesting  
Let it start for better for worse  
"yes", we gonna shout over a gross  
Now tell em you married to a boss  
I wanna see you smiling nicely,  
I wanna see you happy, it's my pleasure  
You my treasure  
My gold, my silver, you priceless

[Chorus]
