Chorus - I'm paying for your walfare
I'm paying for your healthcare
I'm paying for you elsewhere
I'm paying for you somewhere
So better gimme the respect you give nowhere
I'm paying for your walfare
I'm paying for your healthcare

Verse 1 - I'm stuntin round da street(streets!)
Haters see don't't wanna admit defeat
They scared of me I'm military
Check me out rank 1 atillery
They ain't blind but they can't see me
I pass they standstill like mannequins
Money fly high, it causes anarchy
Gimme my wings lemme conquer gravity
Yeah, I'm still spittin what's the next bar
You talk shit I'll come through get ya
I'm like a monsta, all the way from joppa
I come through and change the forecast
I run all tracks like a street car
I stunt watch me like DVDVCR
My shit is like a mystry, you can picture mona lisa
Don't think further the code might hurt ya
You is my servant, I'm your master
You is my student, I'm your teacher
You hold the gun, I pull da trigga
Now better focus, no baby momma dramma
Sp beter be careful if yo sure yo life is vital(yea!)

Chorus - I'm paying for your walfare
I'm paying for your healthcare
I'm paying for you elsewhere
I'm paying for you somewhere
So better gimme the respect you give nowhere
I'm paying for your healthcare
I'm paying for your walfare

Verse 2 - I make the part 1, they make a part 2
Movin fast I'm so unstopable
Shit, I'm flyer than a cabin crew,
Mess with me I'mma deal with you

Death with some niggas black and blue
By the time I was through
They were like, why the hell did I ever f*** with you
Don't ever ask questions you really don't wanna answer
to
Cause I'mma have no choice but to cancel you
Handle you, stop the ride leave you on an avenue
What next to, you waiting for a nigga to come and
pamper you
But that's for them and not for me I'll probably baffle
you
And if you wanna act a fool I'll show you what a nigga
can do
So better come for lessons lemme make a clearer view
Why dis niggas mistake this
I'm all about my paper pages
Lemme go weigh the wages
Can't see what my gauge gauges
Oh! it's overweighed but I see the ranges
You niggas is stationary, I see no changes
Still the same as it was back in ages

[Chorus]
