Maybe, we'll try something new
Twenty, twenty more reasons to swoon
And gently, there's plenty of room
It's something you won't ever lose
Boys and Girls should be as one (Try it on)
God don't mind and it sure is fun (Try it on)
Try it on, maybe just for size (Try it on)
We're alright if Guys don't lie
Standing, standing up on our thumbs
Is killing and our feet gone numb
I'm calling time out, time out from the Guys who lie
They can't dance and it's time to try
Boys and Girls should be as one (Try it on)
God don't mind and it sure is fun (Try it on)
Try it on, maybe just for size (Try it on)
We're alright if -- Well alright then
