Sloe gin getting through them quick
It gets clearer the closer we get
Are you feeling it?

Are you noticing that we're breathing the same air?
Breathing the same air
The same air
At the same time

Sloe gin pouring in
2 turns to 3 and now you're leaning in
It's easy, isn't it?

Are you noticing that we're breathing the same air?
Breathing the same air
The same air
At the same time

Sloe gin it's not a lie
It doesn't make things magically appear
That weren't already there

Are you noticing that we're breathing the same air?
Breathing the same air
The same air
At the same time

Are you noticing that we're breathing the same air?
Breathing the same air
The same air
At the same time

Are you noticing that we're breathing the same air?
Breathing the same air
The same air
At the same time
