You know it's midnight
And the evil appears in the dark
You try to sleep to scream
But my terror takes your breath before you make it
I'm the prince of darkness the mighty force that keeps
you awake
Because i'm your nightmare

Because i'm your nightmare(3x)

Be warned
You know it's midnight
And the evil appears in the dark
You try to sleep to scream
But my terror takes your breath before you make it
I'm the prince of darkness the mighty force that keeps
you awake
Because i'm your nightmare

Because i'm your nightmare(3x)
