I can't die  
But that is my only wish  
I don't need another dimension  
Or another life.  
I screaming for the total death  
Deeply in the dark forest  
I can't find the end  
Because of you damned livings.

You can take my body  
In between torment  
But your god creates my soul  
To immortal  
My wrath will get you  
If my damnation has come  
To it's end

I will there forever  
Every shadow  
Every hateful night  
I'll be the evil of your nightmares  
Until my being gets over

On the funeral of your loved
