History is swirling, it's swirling round and round  
Her life is in such turmoil, it's been turning upside  
down  
I'm longing for the life I'm leaving, to some this seems  
like sin  
A campaign has just begun, it starts from deep within

The black clouds of deceit, they're swallowing her  
hopes  
They're moving with a likeness, flames of rage are  
being stoked  
She's drowning in confusion, it's a sign of all these  
tests  
The sacred ring that meant so much has been laid to  
rest  
Inside my head...

I'll drive the wedge, she won't surrender  
The darkened skies, she won't remember  
All is hidden within jars of clay  
Oh, my skin is turning gray  
Betrayed by love, she'll drift away

The bleeding hearts have been opened by all the truths  
That I've exposed  
Besieged by all this mystery from all the pain that I've  
imposed  
Engulfed in isolation, inside my world alone  
Imprisoned by the secrecy, I do as I was shown  
I don't know where it comes from, or was it always  
there?  
Now it's time, I guess it should lead us to despair  
Oh yes, I know...

I'll drive the wedge, she won't surrender  
The darkened skies, she won't remember  
All is hidden within jars of clay  
Oh, my skin is turning gray  
Betrayed by love, she'll drift away

I feel the betrayal...  
You're abandoned by your dreams

The memories slip away, and yet I know...  
It's up to me...
