It's who I am and what I feel
My life is automatic
Up in the air, is what I breath
And it is never static

Don't let it go
I just want to explode
Oh this insanity eradicates my soul

I am your vision, it's the fire that I come true

Take it to the limit never look back
Soon neurotic, automatic

Please can you save me from myself

It's who I am and what I feel
My life is automatic
Up in the air, is what I breath
And it is never static
So lift me up and take me high
Make me everlasting
Cause I am automatic

Your precious destiny
It's madness to behold

Oh it feels like I'm losing my control

I want the highway, stalk a loner in the cold

So don't let go!

Please can you save me from myself

Your angry vision
The power and control
Take it to the limit
Never look back
It's not neurotic
It's Automatic!
