Well I work a
Double shift at the plant
And I work on the outside
I'd like rather be back home
Makin' love with my new bride
And there's only two things
That I want 'em real bad
At my double-wide
That's a big ole brew
And a little ole you

And I know you're workin'
Every day just as hard as I do
If I didn't think that
I might of loved you but
I wouldn't say I do
And there's only two things
In the that I need to get close to
Is a big ole brew
And a little ole you

Well I got more things
Meetin' in the middle
But I can't seem to get 'em tied
But I don't care long as
I know you'll be by my side

Well I ain't gonna work this
Hard every day of my lifetime
One of these days everytihng
That I want's gonna be mine
But if it ain't evrything's
Bonna be right as long as
There's sunshine and...
A big ole brew
Little ole you
Oh...just a big ole brew
And little ole you
