If you got to make a fool of somebody  
If you got to make a fool of someone  
Do you really want to hurt me  
When I'm the one that worries  
About you

Daytime  
Nighttime  
Any time at all  
I'll rush to your side  
Anytime you call  
Just to be near you  
You know  
That anywhere I'll go  
How could you hurt me so

If you got to make a fool of somebody  
If you got to make a fool of someone  
If you got to make a fool of somebody  
If you got to make a fool of someone  
Do you really want to hurt me  
When I'm the one that worries  
About you
