Here's our story, it must be told  
Keep it or burn it for everemore  
Can't let you wait for ages  
Until you finally find yourself

The support is here  
Accept my help  
To understand  
See what life is for

So I'm waiting every day  
For an invitation to your soirÃ©e  
My doubts have gone, you're my man  
So will you be my snow princess?

Support this man  
I need your help  
To understand  
What your life is for

Listen carefully

My affection for you is genuine  
If you feel for me  
It's more than mutual sympathy  
Trust in me  
Cause it will be late  
And I won't be sorry  
It's a chance you can't miss  
We can achieve just anything

Can't you see?  
It's more than a mutual sympathy  
If you feel for me  
Then we should fly to brazil  
Trust in me  
Cause it will be late  
And I won't be sorry  
It's a chance you can't miss  
We can achieve just anything
