"The Bullet"

Threatened with the fear of falling.
The fear of falling stabs at my soul.
You never really cared at all.
Thrown into a world of ignorance.
You never gave me the chance I deserved.
I climbed and I waited.
I gave you all the world.
The hour of renewal is upon us.
Turn your back to me again.
Please.
I await your disgust. Excuse me while I tear apart your
flesh.
Dance around.
Pretty skeleton.
Dance around.
I'll throw you to your death.
A gust of cool air descends upon my eyes.
The blanket of possession will make you sorry.
Accept it and prepare the altar.
Your skin tastes so good to me.
Pass the bitter salt and sweet revenge.
I'm going out to eat tonight
