I can/see right through you/and your/disguise/your
lies/your mind/your soul
There's only one thing worse than loosing someone
you love
That is haveing you hate me
Every night when I cry
Thinking of what went wrong
Thinking of you
I am nothing without you
Without you I am incomplete
Every night when I cry
Thinking of what went wrong
Thinking of you
Times are turning

Your still burning
You unleashed
Unleashed the fury
I can/see right through you/and your/disguise/your
lies/your mind/your soul
You have caused me so much pain
Because of you I have no heart anymore
Because of you my heart has turned to stone
There's only one thing worse than loosing someone
you love
That is having you hate me
