It's impossible
I'll take the road I came from
Noise on the phone
New boys to give the girls a ride home

The light's on
Your life won't
Become the first and last one

CHORUS
Yeah you're dead alone
New boys to give the girls a ride home

Time won't become
Much more than a waste of earth's sun
The fire's forever more

How long's it gonna burn the world for?

The light's on
Your life won't
Become the first and last one

CHORUS
Yeah you're dead alone
New boys to give the girls a ride home

The light's on
Your life won't
Become the first and last one
The light's on
Your life won't
Become the first and last one
