You should say (see?) it  
Everyday  
The more (?)  
Is the same

It?s not for us to say  
But why not?  
?Cause we?ve got

Another petrol fire  
Another dead excuse  
Another crumpled spine\*  
Another year of abuse

It?s not for us to say  
It?s not for us to say  
But why not?

We went down  
To the bank (/bay?)  
Turned round  
Looked back

We went around the flag  
And for what?  
?cause they?ve got

Another petrol fire  
Another dead excuse  
Another crumpled spine  
Another year of abuse

We went around the flag  
But for what?
