Wait to see the next one move
Wait until the guess comes true
I'll eat out your heart, I'll move
Show me it's the best of you

Commandeer and torture you
Take you to the shade, change the view
Pick and choose holes to go through
Don't even compare anything to...

The kiss in the car
The hole in your heart
The voice on the phone
They know where you are

CHORUS

Wait to see the next one move
Wait until the guess comes true
Don't even compare anything to

Wait to see the next one move
Wait until the guess comes true
Don't even compare anything to...

The kiss in the car
The hole in your heart
The voice on the phone
They know where you are

CHORUS

Wait to see the next one move
Wait until the guess comes true
Don't even compare anything to__

Wait to see the next one move
Wait until the guess comes true
Don't even compare anything to__
