{can't understand line}

{can't understand line}

This one being dead, Lonole will perorate

This one being dead, Lonole will perorate

And snatch the kingdom from his very son

{can't understand line}

{can't understand line}

This one being dead, Lonole will perorate

This one being dead, Lonole will perorate

And snatch the kingdom from his very son

And he will be more of fire than blood

This one being dead, Lonole will perorate

And snatch the kingdom from his very son

(And he will be more of fire than blood)

This one being dead, Lonole will perorate

And snatch the kingdom from his very son
