Lifelong Hangover!

Once again I can't eat I can't sleep and I'm
sick... all week

I smell like an ashtray and yesterday... my piss was
grey

No control no common sense but whole lotta dead
ends

NO bridges left to burn

NO pages left to turn

NO friends left to hurt

I'm listening the voices from the party... next
door

I thought of going but then again... what for?

I don't need another social suicide... just the
regular one

NO shit to talk about

NO point to fake a smile

NO song to sing out loud

There's nothing but...

Lifelong Hangover

Part-time alcoholic

(Full-time) Full-time idiot

Part-time alcoholic

(Full-time) Full-time idiot

No control no common sense but whole lotta dead
ends

NO bridges left to burn

NO pages left to turn

NO friends left to hurt

Lifelong Hangover
