"Be Healed"

Sleepwalking the streets tonight
Every step could change my mind
Even if I change that's alright
Can I be healed?... Be healed

When it rains you stay inside
Kiss kiss kiss those days good bye
You say that I've changed that's alright
Can I be healed? Be healed

Come on come on
Can I be healed?
Come on come on

Can I be healed?
Come on come on
Can I be healed?

Keep the blood beneath the light
Nature is the curse we fight
People say I've changed that's alright
Can I be healed? Be healed

Come on, come on my love
Come on, come on my love
Can I be healed? Be healed
Can I be healed?
