[Verse 1]

Where have I landed I don't quite remember
I fell to pieces one night in December
Pictures in boxes remind me of something
I miss the days when our fingers were touching

[Bridge]

The memories of losing you, you're like a ghost
Tracing where I said to you

[Chorus]

I wish you would listen,
I wish you would listen,
I wish you would listen,
To get through it

I wish you would listen,
I wish you would listen,
I wish you would listen,
To get through it,
To get through it

[Verse 2]

All my decisions were just second guesses
Looking for love like a bride looks for dresses
Every mistake turned to some sort of yearning
A heart that was hollow has filled up with meaning

[Bridge]

The memories of losing you, you're like a ghost
Tracing where I said to you

[Chorus]

I wish you would listen,
I wish you would listen,
I wish you would listen,
To get through it

I wish you would listen,
I wish you would listen,
I wish you would listen,
To get through it,

To get through it
