Baby tonight you're shining bright
Can't get my eyes off you
Suddenly I feel so alive
My heart is finally open
I want you to hold me

Dancing with the stars under falling snow
Baby can't you see colours of my soul?
Moving around and round, high above the ground
We are shining in twilight

You and me are flying higher
A thousand lights are swirling around us
Take my hand and feel my power
Stay with me till the end

Like a shock wave I'm telling the air
Melting the ice like fire
Follow the lead, don't lose the beat
Let's outfly the wild wind
Shining of the twilight

Dancing with the stars under falling snow
Baby can't you see colours of my soul?
Moving around and round, high above the ground
We are shining in twilight

You and me are flying higher
A thousand lights are swirling around us
Take my hand and feel my power
Stay with me till the end

Everyone's looking with eyes open wide
As we are leaving they fall behind
Forget the gravity, reach for the dream
My dream, your dream

Dancing with the stars under falling snow
Baby can't you see colours of my soul?
Moving around and round, high above the ground
We are shining in twilight

You and me are flying higher
A thousand lights are swirling around us
Take my hand and feel my power
Stay with me till the end

Till the end
