You the ones, come to me, chosen, step into the mist,
Come towards me, leave your life, step into eternity.
Loose your fear, ask no questions, come to me, it's
time to go. Close your eyes come towards me, step into
the dark with me. Come, come, come to me, come,
come, come into darkness. Let the darkness embrace
you, closing in behind you. Once you're on, there's no
escape, you must stay eternally. Take my hand, let me
guide you, you will see, I'll set you free. The life you
have must be forgotten, now it's just you and me
