Master of knowledge.
Give me the powerful wisdom.
Supreme energy conduction.
Teach me the universal language.
Show the universal language.
To speak with the cosmic mases.
And this land... where I am alive.
But I need external protection.
Purification with the four earth elements
I am not a puppet

Of the stupid vatican.
Me not, me not.
I have the strange to talk alone.
In this thorn ways.
I don't wanna be a victim more.
I don't wanna be a victim more.
With that fake thoughts.
With that fake thoughts.
I am over them all.
I am over them all.
