Day after day I was burning
I was full of hate
I wanted to succeed
Come closer to the end
We were one in mind and action
We'd never have stopped but time was running out and
we were alone

Everything had to wilt and die:
Flowers, animals and people
Rivers of dead!
The same useless people had finally done something
useful
Bless our hell

Flames of fire everywhere in the name of Satan
Supreme God
We would be slaughters and kings

Lilith:
Little sensual human, follow me in the reign of carnal
sins

Daemon:
My mistress, give me the craft

Lilith:
I'm the lady of lust, taste my sweet nectar of eternal
senses
My master charged me to bring you in our kingdom of
truth

Daemon:
I will follow you wherever you'll go!

Lilith:
Take my body and leave my your soul

Daemon:
Take my soul
I'll rape your sinuous body till the end of eternity

Worshipping evil we burnt
Fire and flames, fire and flames!
