Girl, you broke my heart
You ran away with love
You're the one, I'm always thinking of
And if only you could understand
The love I feel for you could never end
Rejected all the love I gave to you
But feeling sorry for me just won't do
All I want is just to make you see
What love has done when you walked out on me

Chorus:

You'll never find another love like mine
You'll look and you'll look, you'll never find love
A love like mine is hard to find
You'll look and you'll look, you'll never find love
You'll never find another love like mine
You'll look and you'll look, you'll never find love

Girl, I don't know how to live without your love
When I dream of you it's like wishing for the stars
You know I cried myself to sleep
Knowing that our love is a tragedy
If getting stronger is what it takes to make you mine
I should no longer waste my time
If moving on is all I have to do
Then once again, I prove my love to you

Chorus

You never had a chance to really tell me that you love
me
Show me tender loving care and still you went and left
me
My mind is so confused, I don't know what to do
I'm trying to fill this void, cause I'm so in love with you

Chorus
