Yeah lean on me, forever, I'll never let you go
I believe in you
We're better, together, don't you know
When the world comes tumblin' down
And you stand on shaky ground
Reach out, reach out, reach out
If your voice don't feel strong
Let me carry your words along
Don't shout, don't shout, don't shout
Yeah lean on me, forever, and never let me go
I believe in you
We're better, together, don't you know
When your faith has left your heart
And you hate who you are
I'm here, I'm here, I'm here
My love was made for you
The only one I'll give it to
My dear, my dear, my dear
Yeah lean on me, forever, I'll never let you go
I believe in you
We're better, together, don't you know
Yeah lean on me, forever, I'll never let you go
I believe in you
We're better, together, don't you know
Na na na na nana na nana
Na na na na nana na nana
Na na na na nana na nana
