I'm the greatest advocate  
But writers make you fellow face  
Man I get to shake you a rap,  
I bet you they'll surrender,  
Stop them with all boots,  
You can taste the leather!  
Let the bet you I can better!  
Hey crash, hey  
Pay the chatter!  
Master what you won't remember,  
like a Lakers member,  
..in a lake assembly,  
I hit and shake  
You girl chasing niggers,  
Said she need a babysitter.  
make your pictures  
Call me with a straight vendetta,  
Your body is  
.

Man, I'm off the wall like street fighter play with  
Got the nickel play whatever you suburbs claim your  
feathers.  
I'm the clown  
Run a mobile on a track, shine they reflected,  
Cause I'm a wise brave adventurer,  
Brooklyn my state projector,  
Quit the vibe,  
Make a great  
Ever violate the other professors,  
the plot places the question;  
we will not let you  
With a stay perfective,  
With some high rate investors,  
While I'm God's paper pleasure,  
We take the pleasure.  
  
You should try and play for better  
like the God makes some  
I'm the fraud they collected,  
We define a face of terror,

Bring the helicopters out,  
Make them fly their propellers!  
Life is like a game of chess!  
While you guys are playing checkers  
Hasn't take the smoke of Dutch.  
If the cow makes vanilla,  
Hustling, bossling, struggling, juggling,  
And his blundering, mumbling, thumbing,  
is tough as a puzzle is puzzling.  
Bossing your bubble, you're stuck in a  
Come to the bubble with such a  
Catch you when I  
Come off the shadow and run through the tunnel,  
I'm troublesome!  
Cut you, your blood, at the so sudden,  
.  
Death is becoming, your soul is a bubble, is hovering.  
Blood on my, I'm  
I'm humble revenge, I love you!  
Your bone could tumble, I'm thunderous,  
Since you say you wanna rumble  
When the jungle  
Go fucking rumble it!
