RIP to Sean Bell
RIP to Kathryn Johnston
RIP to Amadou Diallo
The list goes on
Change gon' come

No justice, no peace
Another black man shot dead in the streets
Make the whole hood feel sad, its sadness
But we feel mad, its madness
Mike Oliver said his gun jammed, he the main one
12 year veteran and dont know how to use a gun, think
we dumb?
If ya clips was loaded to the top, and your gun
jammed, how ya fire 31 shots?
Say you shot at the man, cause you thought he was
strapped
But you killed a man cause you thought he was
shooting back
Black America, what type of garbage is that
The police academy arming these fools with gats
If your reason was, you thought he carry a gun
That mean you killed him for nothing, cause he aint
have one
Im sick and tired of being sick and tired son
Hope change get here before the revolution come!

Patrick Lynch is an asshole, he siding with the cops
He said they wasn't wrong for firin' all 'em shots
He said if they felt a threat they 'posed to pop
and they should continue shooting until the threat stop
The nerve he got, another word said, they should
continue shooting until Sean Bell was dead
Bloomberg spoke, but we expect him to
He said 50 shots was unacceptable
And he said nobody know how to feel and be another
race
They don't respect that, they call it haemoth disgrace
Press conference infront of everybody, he responded
faster than his predecessor Mayor Giuliani
Some say he spoke it illogically, he got some better

manners
but lets see if we get some better policy
Don't fall for it, its all tricknology
Hope the change get here, before they try to body me

The law states a cop is not permitted to shoot at a
moving car
It don't make a difference if its coming straight at him,
cause if they shoot the driver a 4000 pound car could
cause more drama
But when i heard Charles Barron speak, I believe
he said, "If we gotta bleed, then others gotta bleed"
Five cops placed on administrative leave
But they murdered a father, left behind two seeds
Why was the cops in the club, drinkin' a bottle?
Why was the 41 shots shot at Diallo?
John Podhoretz from the New York Post
Wanna know why Bloomberg and Al Sharpton still close
I read his article, he question it
Why was Bloomberg surrounded by African-
Americans?
I guess the loss of a life was a Mayg
Called Sharpton a race-hating-cop-hater
