Pa-poose, poose, poose
I came in the game with the fame on the brain
What a shame I was in and the changes are...
All the lames of the game kept staying on my lane
But this train on the brain it was drained
No pain, no game, cocaine, dope game
We was raised by the things we were slinging
Shut straight in the veins and I ain't been the same
So they... that I was facing the...
Real cake is the same, you were wasting your chance
by making it rain
I was raining!
To depend with the thing were you bang with your gang
If you bang with your gang better claim it!
And in fact I stayed it was... related
We got the... our places.. created pain and frame it!
...Our hatred strikes to the Matrix...
Everybody wanna be boss when it's all good
When it goes to the left they complain it
The responsibilities for your own action...
Stop blaming!

Chorus:
Is this for your fault, my fault their fault, out fault
Stop blaming!
I was gonna play fingers to go to bad guy
He did it, she did it, stop blaming!
Sometimes she happens cause it happens when it
happens
Gotta stop playing!
Every time you put your fingers back at somebody else
You hold your finger point back at you!
Stop blaming!

I took my chance to my... to enhance in events
You're the champ, I'mma take your belt
..so you will swallow pills to disgrace your health
You'll be spending on the strippers
.. giving all your riches
You just waste your wealth
The song goes on, you're a poor old pal

When all goes wrong gotta blame yourself
I will be earning some..
Pop take a grudge to his grave, these...
I will be honored to berry your filthy coffin
Build in all this ..just to ease your guilty conscious
.. pull a lot of racks, damn mamma raised a legend!
..never would have take the blame, but you take the
credit!

Chorus:

Is this for your fault, my fault their fault, out fault
Stop blaming!
I was gonna play fingers to go to bad guy
He did it, she did it, stop blaming!
Sometimes she happens cause it happens when it
happens
Gotta stop playing!
Every time you put your fingers back at somebody else
You hold your finger point back at you!
Stop blaming!
