I've got gangster love, gimme love like a G  
Cuz I spit out the odds and you get cut like key  
These rochass rappers bitin a thug like a flee  
Cuz I gotta (bzzzzzzzz) buzz like a bee  
Lonely last nigga I aint these phoney ass niggas  
Frontin like Couter Contaise wit they tobey ass niggas  
Whats your head price, is it worth more than a dead life  
Cross million you double cross like the dead Christ  
Bet I trade and bet her twice  
I shake on the bullets in row 4, 5 or 6 in the barrel,  
dead dice  
My last play at heights turned into a led pipe  
Told stay still, he tried to play real fled right  
I put the info red to his head tight  
Then I just gave him a death summons for runnin the  
info red light  
Know what we would, shit pop off, donno know what he  
would do  
Papoose cocked it deathin and blow illegal  
Info red dots in yo face it goes misous  
And raid flows great blows make dos leave dude  
Straight chrome, k tone, make thrown, break bones  
Waste bone, face bone, take thrown, they clone feeble  
Break yo A hole peoples  
Things blow, aim low, babrow, see through  
At the DMV all day over my vehicle  
Thats a long wait when you got a whole lotta things to

do  
Some like me when I sold crack and diesel  
Niggas know my wait was longer than motor vehicles  
Blow your brains out and throw the crumbs in the sewer  
Put your body on it, I hope you dissolve in manure  
Remember when hip hop couldn't hardly remember  
Now we makin our own liquor, we entrepreneurs
