(Intro)

What yall thought yall was safe?  
Yall thought yall wasn't gonna hear my niggas on the  
Nacirema dream  
Thuggers to the death of me  
Or should I say to the death of you?  
Thugger!

(Hook 1)

Where I come from a closed mouth don't get fed  
Where I come from young boys respect old heads  
Where I come from you shut up when you get arrested  
And gangstas speak face to face, fuck a text message

(Hook 2)

Where you come from, yall disrespect OG's  
Where you come from, yall talk to the police  
Where you come from niggas never get it shakin  
Yall be internet killin, iPhone bangin

(Verse)

I got the Louie's on my feet, true swag, belt LV  
You take camera, I stay picture perfect, no RG  
Who got that green swag? That our nigga, that's me  
Heart of a stone, don't bust the rock, Jay-Z  
You stay around pussies, the whole squad coochies  
I stay around G's, my whole squad Gucci  
Thugger thugger, ain't that a storm muthafucka?  
Nigga never had to rap bout me, word to my mother

(Verse)

I spit that fire like I'm propane, niggas call me cocaine  
Now I'm in the dope game, used to rock a rope chain  
Thugger to the death of me, whole team strike back  
Pap already warned yall, homie you ain't like that  
Real recognize real, we don't complain  
Niggas slick talk, end up with a slug in his brain  
We run down on em, cutting down on em  
Lay on these niggas, from sun up to sun down on em

(Hook 1)

Where I come from a closed mouth don't get fed  
Where I come from young boys respect old heads  
Where I come from you shut up when you get arrested  
And gangstas speak face to face, fuck a text message

(Hook 2)

Where you come from, yall disrespect OG's  
Where you come from, yall talk to the police  
Where you come from niggas never get it shakin

All said you wanted cop it, fuck it if it's yo last  
Papper said it's yo turn ho, get up in that ass  
You got style and charisma, give em some pizazz  
180 on the dash, you can't ride like me  
I did this my whole life, OD, OG  
I'm a side block nigga, give respect in the peas  
Flying overseas just for me to play your jetski

(Verse)

My pops told me treat your team like everything  
Prepare e well, make sure they ready for anything  
I give my word, hands down, no funny dreams  
Where I become, we get it done by any means  
In here I feel it, I'm just waitin  
And money make me nervous, my hands shakin  
I said geer, I feel it, them niggas hatin  
But I don't see it niggas, my family is Thugacation

Hella digits, anybody get in, I finish her blood  
I run through a sea like sella mission  
Your work is garbage, that's the reason why your boys  
struggle  
Train you a lyric, be teaching a hook like Floyd uncle  
Runnin for cover when the ratchet ring  
I had yo faggot team stripping like a model in a  
magazine

(Hook 1)

Where I come from young boys respect old heads  
Where I come from you shut up when you get arrested  
And gangstas speak face to face, fuck a text message
