I've been a long way down  
I've been shipwrecked on the rocks of big ideas fallen  
into the sea  
I've been a long way down  
Holding my breath, or breathing through a straw of  
hope I couldn't see

But now I'm on the edge of change like the edge of a  
blade

I've been a long way down and I've seen a lot of sides  
of me  
I've been a long way down  
I've been to places I never meant to see

But now I'm on the edge of change like the edge of a  
blade  
And I'm holding my ground and I'm not gonna fall away
