Alec Bridges - Madeline

Madeline, run away from here
Get yourself out while you can
In this life, I've seen you die so many times
There's no more reason to cry
Madeline, you have nothing to fear
In living this life like it's the last
So say goodbye to the 'round and 'round
Of chasing your dreams into the ground
'Round and 'round, we go 'round and 'round
Chasing our dreams into the ground
'Round and 'round, we go 'round and 'round
Chasing our dreams into the ground
Goodbye, goodbye, goodbye
Madeline, you're so awake and alive
You set the whole world on fire
Don't look back, you're safe in the stream
This life was nothing more than a dream to you
'Round and 'round, we go 'round and 'round
Chasing our dreams into the ground
'Round and 'round, we go 'round and 'round
Chasing our dreams into the ground
Goodbye, goodbye, goodbye
