What it comes down to
Now it's time to say what
I carry in my heart
True to myself I will never change my ways
The days have changed
No way no turning back
You've got to live your life
Be yourself keep each others backs
On the map I will always stay on track
The way I think the way

I live
My life is free don't give a fruck
About you hypocrites, get off me
I live my life the way
I choose
You can't break me.
I lead my life with no regrets
Keeping my faith for the lord
And the final judgement
We spent our lives through the times of your ignorance
Betrayed by man, holding it down for.

Holding it down for my family
What it comes down to
I'm there for you
Holding it down for my family
BXL-MAASTRICHT this is our crew
Holding it down for my family
What it comes down to
I'm there for you
Holding it down for my family
BXL-MAASTRICHT
I got your back
