You're simply fascinating. Polite in every way.
A brunette which I'm indebted to, because you just
made my day.
Your dressing is quite formal. Your speech has been
refined.
I bet you have your problems, but well now so do I.

You say loves overrated, but see I've never dated
A girl, a world, for me.
You add you've stopped believing since there was no
achieving
A goal, a whole, a family.

But I think your very wrong.
This cold world has done you wrong.
And your doubt needs to move on.
Because I think you'll be very pleased with me and you
or you and me.

You're less than what I wanted, but more of what I need
My vision must be broken, because your most of what I
see.
I've been dying from this craving. Your Aroma is too
strong.
I better take a chance and break a stance, because I
prayed this won't take long.

You say loves overrated, but see I've never dated
A girl, a world for me.
You add you've stopped believing since there was no
achieving
A goal, a whole, a family.

But I think your very wrong.
This cold world has done you wrong.
And your doubt needs to move on.
Because I think you'll be very pleased with me and you
or you and me.
