

## Angelus Apatrida "Fairyland"

Visit "[Fairyland](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Colder than Ice  
The World falls apart  
Cold like a Stone  
The spell on the Souls  
Colder than ice  
Your hand on my Heart  
A world made of stone  
Let tenderness freeze

[Chorus]  
Save the Fairyland we live in  
Where all failings are forgiven  
Feel like hunted by a Griffin  
I fall down  
Straight down  
Save the Fairyland we live in  
Where my failings are forgiven  
Feel like hunted by a Griffin  
I'm falling straight down

Catch my Daydream  
Catch my Fall

Colder than Ice  
Night all around  
Cold like a stone  
The Heart of success  
Wasteland of Ice  
We fall to the Ground  
A World made of Stone  
Let Tenderness freeze

Save the Fairyland we live in  
Where all failings are forgiven  
Feel like hunted by a Griffin  
I fall down  
Straight down  
Save the Fairyland we live in  
Where my failings are forgiven  
Feel like hunted by a Griffin  
I'm falling straight down

Falling down  
Falling down  
Catch me  
When I'm falling down  
Please come to me...

Save the Fairyland we live in  
Where all failings are forgiven  
Feel like hunted by a Griffin  
I fall down  
Straight down  
Save the Fairyland we live in  
Where my failings are forgiven  
Feel like hunted by a Griffin  
I'm falling straight down

Save the Fairyland we live in  
Where all failings are forgiven  
Feel like hunted by a Griffin  
I fall down  
Straight down  
Save the Fairyland we live in  
Where my failings are forgiven  
Feel like hunted by a Griffin  
I'm falling straight down
